

# Sofia Thomas Ltd Seminars

## Who we are

Sofia Thomas Ltd was established to provide specialist tax consulting services to law firms. At Sofia Thomas Ltd we understand the multifaceted regulatory environment in which law firms and large corporations operate and we aim to provide straightforward advice on complex UK tax issues.

Through discreet support or as part of your client-facing team, we'll take the difficult tax questions and deliver a complete and comprehensive answer.

We are a trusted tax partner to Top 500 Legal Firms, CEOs and Fund Managers. We understand it is not possible to hold all expertise in-house and we can provide this support seamlessly either face to face or over the phone. We provide direct, actionable advice to tax issues saving you time, resource and money.

Engaging with Sofia Thomas Ltd will ensure that your offerings are not impacted or limited when it comes to tax advice. Excellence is at the heart of what we do and you can rely on us to deliver.

## Talks and Seminars

The complexity and rapidly changing tax laws mean it can be hard to grasp the most important changes for you and your clients. Sofia is able to work through the changes to the tax law and legislative amendments that occur after court cases. She can determine the most appropriate and relevant information that can best assist you and your clients.

Sofia will travel to your offices and present to you partners and or associates a 30-60 minute seminar on specific tax topics that are relevant to your area of law. She will talk about common pain points for clients and how to best assist them when they approach you for advice. There is always plenty of time at the end of the session for questions and to talk through any live cases.

The seminars are designed and delivered to give more awareness of tax issues and to help you identify areas where you can add value with a client or advise them when they need to seek tax advice.
